Preferred

Optional

The attached graphics have been set up in a non variable and variable format as depicted.

The printing supplier and final manufacturing printer may print all or any portion of the graphic as long as the complete graphic is in place at the completion of production.

The following scenarios currently exist and are acceptable:

1. Outside printer to print entire label (variable and non variable).
2. Outside printer to print non variable and the Mfg site to print the balance.
3. Outside printer to print a given portion of the graphic and the Mfg site to print the balance.
4. Mfg site to print the entire label (variable and non variable).
