## MYATRO L

Eye Drops

Paediatric Use Only

### Composition:

Each ml contains:

Atropine Sulfate USP 0.25 mg

Stabilized Oxychloro Complex 0.05 mg

(As preservative)

Sterile aqueous buffered vehicle q.s.

**Pharmacology:** Atropine eye drops is currently the most effective treatment for myopia control in children. It is aimed at slowing down the pace at which the myopia is increasing but does not reverse existing myopia.

**Indication:** Atropine sulfate 0.025% is indicated for slowing down the progression of myopia in children.

**Dosage:** MYATRO L eye drops is indicated to be used once a day or As directed by the Physician.

### Instruction for use

**Step 1:** Remove the Tamper evident ring.  
SPIKE

**Step 2:** Tighten the cap on the nozzle.  
The spike in the cap will pierce the tip of the vial.

**Step 3:** Dispense drops with gentle pressure.  
Replace the cap after every use.

**Warning & Precautions:** Due to low pH which is necessary to stabilize atropine, the drops may cause mild burning. Allergic reactions were observed only in rare cases.
