

EC DECLARATION OF CONFORMITY

Futura System Group S.r.l., as a manufacturer, declares under its responsibility that all the IVD (in vitro diagnostic medical devices), listed in the annex to this document, meet with all parts of the essential requirements as laid out in Annex I of the Directive 98/79/EC of the European Parliament and of the Council of the 27 October 1998.

Furthermore declares and assures that:

1. The devices meet all requirements included in the Annex III of the Directive and that is documented by checklist who provides the technical documentation of support, product specifications and the documents regarding to the application of the Quality System In compliance with EN ISO 9001 : 2008 and EN ISO 13485 : 2012.
2. The devices are not included in the list A and B of the Annex II, and are not for self - testing and performance valuation.
3. Its own availability in preserving and in putting at the disposal of the Competent Authority the Technical Documentation of the products, the registration of the production and the relate batch records for a period of five years from the date of production of batch.

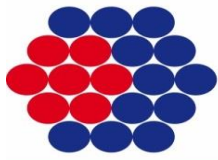

It states, finally, to have established and maintain a suitable monitoring procedure to ensure after-sales as required by the Directive.
